

CSS OUTLINE COLOR

- ◆ The **outline color** property is used in CSS, to choose the color for outline.
- ◆ **Outline-color property** value should either be a color name, a hex color, or an RGB value.

Sample Code:

```
<!DOCTYPE html>
<html>
  <head>
  </head>
  <body>
    <p style="outline-width: thin; outline-style: solid; outline-color:
red">
      Welcome To WikiTechy.com
    </p> <br />
    <p style="outline-width: thick; outline-style: dashed; outline-
color:#009900">
      Find Solutions For All Technology Errors.
    </p> <br />
    <p style="outline-width:5px;outline-style:dotted;outline-
color:rgb(13,33,232)">
      Best E-Learning Website in The World.
    </p> </body> </html>
```

Code Explanation:

```
<!DOCTYPE html>
<html>
  <head>
  </head>
  <body>

    <p style="outline-width:thin;outline-
    -style:solid; outline-color:red">
      Welcome To WikiTechy.com 1
    </p><br />

    <p style="outline-width:thick;
    outline-style:dashed;
    outline-color:#009900">2
      Find Solutions For All
      Technology Errors.
    </p><br />

    <p style="outline-width:5px;outline-
    style:dotted;
    outline-color:rgb(13,33,232)">3
      Best E-Learning Website in The
      World.
    </p>

  </body>
</html>
```

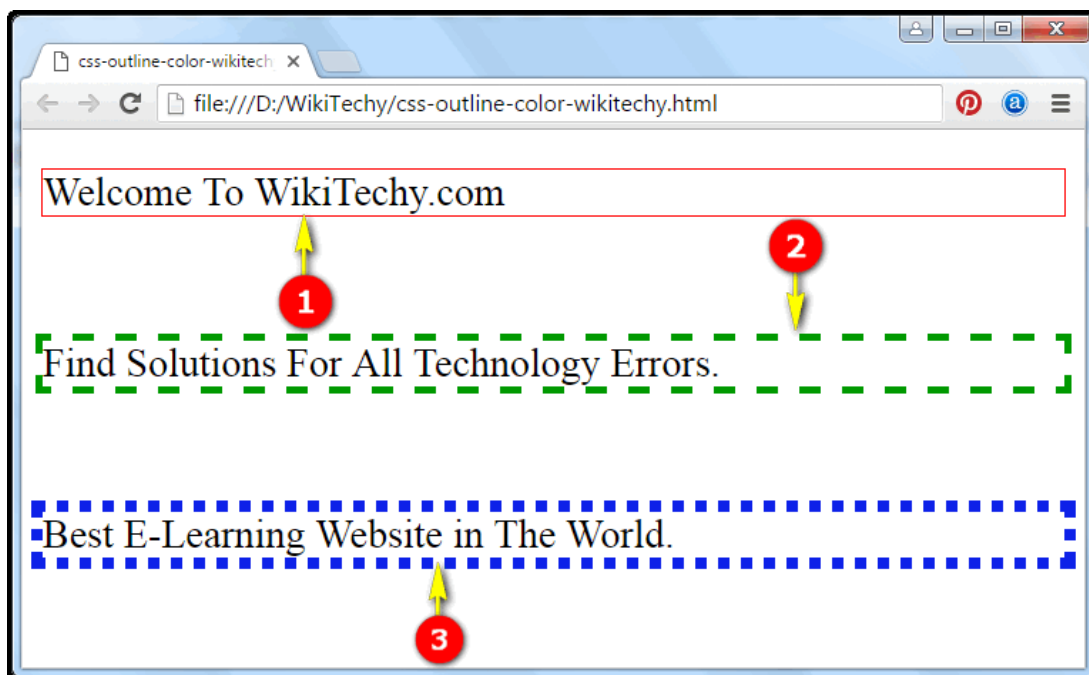

1 In CSS, **outline-color: red** is used for applying red color for the outline around **p tag**.

2 Here, we are Applying hexadecimal color values for outline in **outline-color** property.

- ◆ Note: RGB values can also be assigned using **hexadecimal** color values in the form of: **#RRGGBB**, where **RR** (red), **GG** (green) and **BB** (blue) are hexadecimal values between 00 and FF (same as decimal 0-255).

3 Here, **p element** was defined for the statement “**Best E-Learning Website in the World**” where the outline for the statement is applied with RGB Colors values which specify its color values based on the formula (red, green, and blue).

Output:

- 1 Here red color value is applied for the outline around the text **"Welcome To WikiTechy.com"**.
- 2 The Text **"Find Solutions For All Technology Errors"** will have a outline in green color outline which is specified in Hexadecimal.
- 3 Over here, the RGB color values is applied for the text **"Best E-Learning Website in the World."** which will be displayed with blue color outline.
